

Alejandro Diez

Full stack web developer

I am a Full Stack web developer with experience in NodeJS, React, Redux, MySQL, PHP, HTML, CSS and other relevant technologies in the industry. I also have a background in Web Design, which allows me to create attractive and functional visual products. Additionally, I have work experience in the Argentine Chamber of Steel (Cámara Argentina del Acero) and at Farmas S.A., as well as in Petrobras call center.

I have a varied education, with studies in industrial engineering, marketing, graphic design, and marketing, as well as courses in leadership, public speaking, and English. I am a person in constant development, with analytical and creative skills, and I am capable of working well in teams thanks to my empathy and ability to generate harmony.

I also have skills in Excel, Access, Word, Powerpoint, Adwords, Facebook Ads, Analytics, and social media management. I speak advanced English and basic Portuguese.

Studies:

- SoyHenry - Web Develop Bootcamp - Complete
- Bachellor, St Patrick's School
- Industrial Engineering - UCA – 1 year
